

Programme Owner Familiarisation Workshop

You are invited to attend a one day workshop designed especially to familiarise Programme Owners and Team Leaders with An Even Better Place to Work

21st January 2009

Who Should Attend?

This Familiarisation Day is intended for "**Programme Owners**" who are responsible for employee engagement within their organisation such as OD Directors, Head of Change, Talent Managers, HR Directors/Managers, and Operational Directors.

It is also intended for those who will have a hands-on operational role in the implementation of employee engagement initiatives, and also operational managers and team leaders.

Outcomes

After attending you will be totally familiar with the Engagement programme, its objectives and structure – everything you will need to implement this unique culture and behaviour change programme.

Hands-On Experience

A virtual organisation will be created from those attending this event. We will have a programme owner, sponsor, team leaders and team members. We will run the programme as a 'live' event for this virtual organisation. This provides a real, hands-on experience. We will cover every aspect of the programme allowing you total familiarity with the website, the program sequence, measures, activities, and the wide range of resources.

Additional Training Resources

You will also be introduced to additional material for improving the seven **Satisfaction @ Work** indicator scores.

Networking Opportunity

You will have the opportunity to meet with other Programme Owners, share experiences, ideas and approaches.

Event Leader

The Familiarisation Day will be lead by renown international speaker, **Shay McConnon** who is the author of **An Even Better Place to Work**, many books and videos on subjects related to employee engagement. Shay is also a member of the **Magic Circle** so expect to be entertained!

Event Details
