

An Even Safer Place to Work

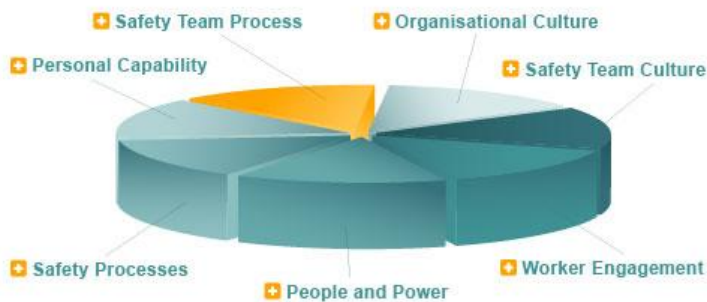

Welcome to An Even Safer Place to Work - helping you to engage your entire workforce in improving your workplace safety culture

A Business Tool For Creating A Positive Health And Safety Culture

An Even Safer Place to Work is based on seven key indicators which are key to establishing a health and safety culture that promotes a collaborative safety partnership between management and employees, and is able to meet the risk challenges facing organisations today.

This is not just a Programme – it is a work culture...

- People taking ownership for improving health and safety in their work
- People running activities, inviting feedback on their health and safety needs
- People initiating conversations about real health and safety at work issue.

An Even Safer Place to Work *drives...*

Measures the Health & Safety Culture and Engagement Processes of Your Company

The rich data collected through the programme indicators (which is always current) allows managers to gauge the 'health and safety behaviour' of the company and to make interventions; which are targeted towards the real health and safety issues.

- Improve Safety Leadership
- Develop Empowered Teams
- Increase Staff Safety

An Even Safer Place to Work is aligned to the **Health and Safety Executive** HSG 65 – Successful Health and Safety Management and HSG 263 – Involving your Workforce in Health and Safety.

Can Be Used With A Single Team, A Department Or A Whole Company

- A Totally Automated Programme
- Systemised And Incremental
- Quick, Efficient And Lasting
- Designed For Busy People
- Aligns with the principles of HSG 65 & HSG 263
- Highly Cost Effective
